Standards for Window Replacement

Revised: April 21, 2022

1. Windows must be replaced with the same kind as in your building presently; 5709 has double hung windows and all other buildings have the windows that slide.
2. No decorative glass will be permitted.
3. All newly installed Windows and or sliders must be hurricane impact as noted by code for Lee County Florida.
4. The trim on the outside of the window must be white
5. All installation and replacement windows and or sliders must be approved by the board of directors prior to installation. Proper application must be sent on an architectural modification form. This form must be accompanied by the insurance of the company installing the windows and or sliders, proper license, and specs from the installing company.
